#### HOW'S THIS FOR ECONOMY?

Eggs are expensive, butter is more so, and milk is by no means cheap—but even so our "sweet tooth" demands cake once in a while and here's a recipe that beats the "high cost of living" three ways. It requires neither eggs, milk nor butter to make this cake:

One cup brown sugar, one cup seeded raisins, one cup water, one-third cup lard, one teaspoon cinnamon, one-third teaspoon cloves. Boil the above together three minutes. When cool add one teaspoon soda dissolved in warm water, two cups flour, one-half teaspoon baking powder, one cup black walnut kernels. Beat thoroughly. Bake in loaf 40 minutes.
